

Register of Trunk infrastructure information Logan City Council

Date of update: 30 September 2021

An overview of how infrastructure charges revenue is collected and expended:

- Infrastructure charges are collected in monetary form and in non-cash form as trunk infrastructure may be provided by a developer in lieu of paying the levied infrastructure charge.
- Not all infrastructure charges that are levied through development are collected by the local government, as the development approval may lapse.
- Under the Planning Act 2016, infrastructure charges revenue that is collected in monetary form, is not required to be spent in the same suburb or locality where it was collected.
- Infrastructure charges revenue may be used to pay for shared regional scale infrastructure such as an arterial road or sewerage treatment plant.
- Offset provisions under the Planning Act 2016, also allow for an entire infrastructure charge, relating to more than one network, to be applied against the cost of infrastructure to be provided under a condition of development (i.e. the construction of an arterial road).
- Depending on the rate of development and growth, and associated need for delivery of trunk infrastructure, infrastructure charges may be spent in period of time that differ from when they are collected.

Please Note:

- Where an entire trunk infrastructure item has been delivered the total offset amount has been reported as the infrastructure value. Where an infrastructure item has been partially delivered (i.e. delivered in stages), only the partial offset value has been reported.
- The information provided below is subject to regular updates and refinement.
- A trunk infrastructure item is reported as delivered when the trigger for the offset is satisfied or when the construction contract is awarded by Council.

Disclaimer:

While all reasonable care has been taken in preparing this information, Logan City Council does not warrant the accuracy, completeness or currency of this information and accepts no responsibility for, or in connection with, any loss of damage suffered as a result of any inaccuracies, errors or omissions, or your reliance on this information.
