

# Logan Central Summit

The civic and cultural heart

Logan City Council is looking ahead towards the next 20 years and the development of a progressive and vibrant network of city centres to serve the future needs of Logan.

Building on previous planning, we are now transitioning from the 'visioning' to 'doing'. The Logan Central Summit held on **11 May 2018** focussed on how key government, industry, business owners, landowners and the community can collaborate and provide insight into harnessing strengths and capitalising on opportunities to help develop Logan Central as the civic and cultural heart of our city.

For more information view the [Logan Central Summit Program](#).

## Logan Central Summit Outcomes

At the conclusion of the Logan Central Summit and community engagement period, a total of 679 submissions were received with 902 ideas on a future Logan Central.

A [summary](#) of all the summit ideas resulted in the identification of 27 key actions, comprising of 49 initiatives that align with the four urban design themes.

## What's next for Logan Central?

On 26 February 2019, Council approved the [Logan Central Implementation Plan](#) to guide planning and delivery of priority projects and programs in Logan Central, which build upon the overall objectives of the Logan Central Master Plan and incorporate the outcomes of the Logan Central Summit.
