

Meadowbrook Summit

Building a centre for health,
wellbeing and community

Logan City Council is looking ahead towards the next 20 years to develop a progressive and vibrant network of centres for the future City of Logan.

The Meadowbrook Summit was held on **20 and 21 September 2018** to create momentum around the vision of the recently endorsed Meadowbrook Master Plan 2016 to create a centre for health, wellbeing and community in Meadowbrook.

The event focused on stimulating healthcare investment and advancing tertiary education in the Meadowbrook area, centred on the expanding Logan Hospital, and supported by the surrounding transport infrastructure and nearby educational institutions.

For more information view the [Meadowbrook Summit Program](#).

Meadowbrook Summit Outcomes

At the conclusion of the Meadowbrook Summit, 160 summit participants, including representatives from the health, education and investment sectors, supported the vision to progress Meadowbrook as the City of Logan's premier destination for healthcare investment and advanced education.

The [Meadowbrook Summit Outcomes Summary](#) identifies 22 actions and 40 initiatives that will help Meadowbrook become Logan's place for health, wellbeing and community, and develop into a true health and knowledge precinct.

Next Steps

In February 2019, Council approved the [Meadowbrook Implementation Plan](#), to guide the planning and delivery of priority projects and programs in Meadowbrook, which build upon the outcomes of the Meadowbrook Summit.

The summit outcomes will also be used to inform a future amendment to the Logan Planning Scheme 2015 to give statutory weight to the outcomes embedded within the Meadowbrook Master Plan. This planning scheme amendment will be in the form of a Meadowbrook Local Plan to be released for public consultation in the future, in accordance with the *Planning Act 2016*.

The Business Case for Health and Medical Investment

Logan City Council commissioned research to identify the health and medical development and investment opportunities in the Logan local government area. Based on evidence driven data, the research completed as of May 2018 provides an understanding of the current and future health demand to identify gaps (existing and future), and explores the main investment drivers. The abridged version of the business case is available for [download](#). To access the full document, contact Council at loed@logan.qld.gov.au.
